Is Latzer Library Haunted?

You are invited to team with members of the St. Louis Paranormal Research Society to try and answer this and other questions about the library. STLPRS has been called upon to investigate many of St. Louis' major venues, to include the Fox Theater, and now they want your help to investigate the library.

STPLRS will provide all of the equipment and training necessary for you to conduct an extensive investigation and come to your own conclusions. Please bring a flashlight and your own phone if you wish to document your investigation.
