THE IRIS

Nineteen Hundred Thirty

Published Annually By The High School
FOREWORD

The Class of 1930 presents the eleventh volume of the Iris primarily to record, in pictorial and enduring form, the people, the events, and the spirit of our school year.
EAST ENTRANCE
DEDICATION TO THE FACULTY

To Miss Esther Fischer, who as our sponsor for four years, has ever been kind and helpful in all undertakings—

To Miss Irene Foster, who has taught us English and Latin and coached our plays with unflinching willingness—

To Mr. Lewis Ogilvie, our superintendent, for his contagious enthusiasm and success in arousing modern school spirit—

To Miss Lorna D. Spencer, who has taught us to read and interpret history and the art of public speaking—

To Miss Selma Tschannen, who has been successful in instilling appreciation for music in her work with the orchestra and the glee clubs—

To Mr. Joseph J. White, our coach and science instructor, who has been instrumental in making this an unusually successful athletic season—

To Miss Mabel Wenger, our commercial teacher, who has made us realize the importance of accuracy and neatness in all our work—

To Miss Stella Yates, who has guided us through the intricacies of mathematics and bookkeeping—

WE DEDICATE THIS ELEVENTH VOLUME OF THE IRIS.

Athletics
Basketball practice started the latter part of September. Of the twenty-seven men who turned out, the following fourteen were chosen to play on the regular squad: Captain Ed. Neubauer, Hoffmann, Byrne, Lory, Tschannen, D. Neubauer, Morstain, Tibbetts, Cabbage, Riggs, C. Wilson, A. Siever, A. Kleiner, A. Siegrist.

The past season no doubt has been the most successful season ever played by any Highland Hi team. When referring to the season as the most successful season we must take these factors into consideration: The success of the season does not only consist of the amount of games won and lost, but the quality and style of "sportsmanship" which our team showed in defeat as well as in victory.

17 games made up the official schedule of the season of 1929 and 30. The team won 15 and lost 2 of the games. The boys made quite a run of consecutive victories by winning 9 straight, meeting the first defeat of the season with Carlyle. We were next and lastly defeated by Livingston, on the latter's home floor.

BASKETBALL NOTES

Our success this year has been due to a great extent to the support given to the team by the citizens of Highland and the Highland Hi students. For their support we, the team, thank them one and all. Due appreciation is to be given to our Coach, Mr. White, for the splendid work and patience he has had with the team this year.

The members leaving the team this year are Hoffmann, Lory, Byrnes, Tibbetts, Morstain, Cabbage, and Kleiner. The team next year will have three reliable men back on the team. They are Captain E. Neubauer, D. Neubauer, and Tschanen who have played wonderful basketball this year. These three men will form the nucleus around which the team will be built next year. We, the men who are leaving the H. H. S. ranks, wish them all the luck for next year.

Men who receive letters this year are the following: E. Neubauer, Hoffmann, Lory, Tschanen, D. Neubauer, Byrne, Morstain, Cabbage, Kleiner, Tibbetts, Siever and C. Wilson.

EDWARDSVILLE DISTRICT TOURNAMENT

The district tournament this year was held again at Edwardsville. For her opponent Highland drew Collinsville, one of the strongest teams in the tournament.

Highland and Collinsville started the game with a bang and from all appearances of the game it was expected to be like the Livingston, Granite City game the night before. The first quarter the score was very close with Highland leading 8 to 7.

The second quarter the Collinsville team started scoring, due to the fact that the big court was showing its effect on our team. The score showed this also for at the end of the last quarter the score was 46 to 19 in favor of Collinsville. The team played a good fast game, but were far outclassed in age and size.

GIRLS' BASKETBALL

One day after the school had become quite enthusiastic over the starting of the basketball season, Mr. Ogilvie made an announcement concerning basketball for the Girls.

Mr. Ogilvie gave out permits to each girl, who wished to play basketball, to take home and have signed by a parent. In a short time four girl teams were organized, one for each class. Then basketball practice for the girls started in the "Little Gym", which was fixed up into a small basketball court.

After the teams were succeeding fairly well, a series of games took place between the different classes. Each class team proceeded to defeat each other until it was almost a mix up, but the Senior Girls finally won out as having the best team, both in size, weight, and playing skill.

Out of these four class teams, Mr. Ogilvie, the coach of the Girls team, picked the following girls to be on the Varsity team: Capt. I. Trost, B. Feutz, I. Hug, M. Steiner, M. Kamm, M. Michael, L. Blesch, F. Zobrist, E. Iberg, M. Neubauer, V. Zeller, G. Drum, A. DeForest, B. Fricker and V. Kuhner.

LYCEUM NOTES

In the first lyceum number we had the privilege of hearing a real violin virtuoso. This master violinist, Vladimir Lenski, is the owner of the oldest violin in the world. He was very ably assisted by Karola Lunspack at the piano.

Robert E. Morningstar gave us an illustrated program of famous people whom he has met and interviewed. He presented these pictures on a daylight screen and gave short intimate stories of their personalities—revealing the characteristics which made them outstanding persons.

J. J. Alexander, well-known concert artist and manager of the company presented a program of almost unbelievable variety. In using their ten instruments they gave us some music of the classical and the popular class.

Dr. Epier, the American Biographer and lecturer told the thrilling story of Clara Barton, battlefield angel, founder of the Red Cross and our greatest national heroine. His talk was very interesting.

The Elias Tamburitza Serenaders of Jugo-Slavia presented a program of native music, song and story, as well as popular and classical numbers of this country. Mr. Charles Elias is an accomplished musician, teacher and composer.

Captain Sawders presented an illustrated lecture on "The Wonderland of Mexico" in which he gave us an insight of the different manners of life in Mexico. He has been a witness to the stirring events of the past few years in Mexico.

The Ye Olde New England Choir gave us a program entitled "The Songs of Three Centuries." It was a costume recital showing the musical development and changes in customs and style of dress from the time of the Pilgrims until the present.

The Lombard Entertainers presented one of the most picturesque and entertaining programs of the series. A great many of their numbers in both music and readings were in costume. Mr. Lombard was baritone with the English Opera Company for a period of eight years. Mrs. Lombard specializes in songs, readings and whistling solos.

Perhaps you are planning to enter one of our better colleges or universities next Fall.

Perhaps you are planning to go to a business college and prepare yourself definitely for a position in the commercial world.

Again, you may be planning to actually engage in business.

Whatever you do next Fall, you will find that a Savings Account in the State & Trust Bank is a mighty good friend. During the Summer months, open your account and then deposit regularly each week $1.00 or $2.00—a sum that you rarely will miss. In just one year the $1.00 weekly deposit will grow into a sum more than $50.00 and the $2.00 weekly deposit will exceed $100.

A growing Savings Account with us will help you over many difficulties and will bring you many things that seem to be out of reach. The earlier you open your account and start saving, the better. Why not open yours today?

Chiropractor
Highland, Illinois

CHIROPRACTIC is a Philosophy, Science, and Art of things Natural; a system of adjusting the articulations of the spinal column, by hand only, for the correction of the cause of disease.

The adult spinal column consists of the superior 24 freely movable bone segments, called vertebrae, together with the sacrum and coccyx. All of the great nerve trunks emit thru the openings between these vertebrae, which openings are known as the intervertebral foramina. The vital life force within man is carried by these nerve trunks from the brain to the various organs, muscles, and tissues of the body.

For every effect you must have a cause; that is a fundamental law of physics. If a person is ill, then the condition of disease, regardless of the name applied for it, is in fact an effect for which there must be a cause.

The Chiropractic premise is that the cause of disease is due to the subluxation of vertebrae, which produce pressure upon the nerve trunks and thus interfere with the transmission of vital life force. The illustrations show how this interference is created.

The Chiropractic objective is to determine the subluxation, or subluxations that interfere with the transmission of this vital life force, and, thru proper adjustment by hand, restore such subluxated vertebrae to their normal position so that the interference is removed, thus permitting the restoration of Health.
